ILLUMINATED MAGNIFIER

CTM-200

TTM-200

**DESCRIPTION:**

Model CTM-200 is specially designed for inspection in industrial purpose. The magnifier is fitted with a Dia. 125mm optical glass lens of 5X & 10X on flexible arm with adjustable neck for easy positioning and having the facility to clamp it on table. It has maximum possible power for a lens of its size consistent with virtually no distortion & free from any chromatic or spherical aberration. It gives fatigue-free stereo view equipped with round fluorescence Tube of 22 watt which has a shadow less, glare free, cool illumination, works on 230V, 50 Hz AC mains.

Model TTM-200 is specially designed for and inspection in industrial purpose. The magnifier is fitted with a Dia. 125mm optical glass lens of 5x. this is a table top magnifier. It has maximum possible power for a lens of its size consistent with virtually no distortion & free from any chromatic or spherical aberration. It gives fatigue-free stereo view equipped with round LED illumination, which has a shadow less, glare free, cool illumination, works on 230V, 50 Hz AC mains.

FEATURS:

- It equipped with 10w 30pcs of LED light.
- Its active arm is a special design, which can be adjusted conveniently and avoid magnifier's vibration interfere.
- It fitted with metal base and excellent spring mechanism, which brings more strong and rigid support.
- White optical lens is available to relax the strain of eyesight after long time of use.

TECHNICAL SPECIFICATION:

Model No.	CTM-200-5X	CTM-200-10X	TTM-200-5X	TTM-200-10X
Magnification	5X	10X	5X	10X
Lens Size	φ120mm	φ120mm	φ120mm	φ120mm
Illumination	30 pieces of LED	30 pieces of LED	30 pieces of LED	30 pieces of LED
Light Power	10W	10W	10W	10W
Power Supply	220V, 50 Hz AC	220V, 50 Hz AC	220V, 50 Hz AC	220V, 50 Hz AC

* Due to continuous product development, Image & specification can be upgrade.
