PM-150

**DESCRIPTION:**

BANBROS Profile Projector PM-150 are versatile sophisticated and are used in different industries for inspection of disposable syringes, concentricity of welding electrodes, inspection of various parts of energy meter etc.

TECHNICAL SPECIFICATION:

| Model No. | PM-150 |
|-----------------------|---|
| Type | Vertical Axis Light path, Table Top Projection Microscope |
| Screen | Frosted Glass Screen diameter 150mm |
| Magnification | 20X (standard) |
| Objective | 5X |
| Illumination | Transmitted Light 12V/100 watts with ON/OFF Switch & Intensity controller |
| Cooling | Fan cooling noiseless and vibration free |
| Power Input | AC 220V 0Hz |
| Dimensions (WxDxH) | 20 x 38 x 42 cm |
| Gross Weight | 20 Kgs (Approx) |
| Furnished Accessories | Power supply cord, Vinyl Cover, Spare Bulb |
| Optional Accessories | Screen 150mm with cross hair line |
| | Screen 150mm with scale |
| | Mechanical stage to hold glass slide |
| | Work stage with Micrometer head 0-25mm |
| | Objective 5x, 10x, 20x, |
